Hi Tara,

I do not believe any Suquamish staff participated in the March teleconference.

Steve,

Thank you for sharing information with us regarding the cleaning of the ex-Independence. Do you know if the Suquamish Tribe participated in a national teleconference held with tribal governments and hosted by EPA Headquarters and the Department of Defense on March 23, 2016? The purpose of the teleconference was to obtain tribal input during the development of the proposed discharge standards under the Uniform National Defense Standards Phase II rulemaking. One of the discharges identified is from underwater hull husbandry.

Thank you in advance for your time and response.

Sincerely,

Tara Martich
